## HOME & LIVING

We look to nature to guide, inspire and comfort us

Natural and earthy colours mark this collection. The landscape that inspired us is wooded, crossed by soft running streams, spread under a sun-filled sky with a cool breeze driving playful clouds. Here is a sense of peace and serenity in a chaotic world.

Reflecting this mood, the collection is focussed on harmony of texture and colour. It draws on craft skills to give a layering of cotton quilts and throws each marked by complementary handling of fabric. There is an inventive use of pleating, hand guided stitching and patchwork.

Neem treasures the softness of fabric in a collection that is conceived for those who value the touch of bedding and decorative pillows that speak of nature, of craft and of what is made by hand.
